

ECO GRIP SOLID

Ecogrip Solid, with its high durability and longevity, is the guarantor of a flawless floor.

Sizes:

90 cm × 120 cm
110 cm × 120 cm
130 cm × 120 cm
150 cm × 120 cm
180 cm × 120 cm

Thickness:

1,8 mm

Colour:

transparent

Material:

[PC] polycarbonate,
[PUR] polyurethane

Surface:

structured

Bottom:

VAB®-antiglide layer

Fire behavior:

flame retardant
Bfl-s1 (DIN EN 13 501-1)

Optimizing instead of renovating

Ecogrip Solid skilfully polishes up the floor in the office or at the workplace at home. Unwelcome scratches or stains on the floor are concealed. Ecogrip Solid also looks good on a new, high-quality floor covering: The optically clear, crystalline structure impresses with high light transmission and crystal-clear transparency.

Extreme impact resistance and high break resistance make Ecogrip Solid an extremely hard-wearing floor protection mat made of at least 80 % recycled material. It is extremely robust and durable, at the same time highly resistant to scratches, extremely temperature resistant (-100 °C to +120 °C) and has self-extinguishing properties (flame retardant Bfl-s1 according to DIN EN 13 501-1).

Ecogrip Solid prevents unnecessary wear and tear on the floor covering and guarantees unrestricted freedom of movement for the chair castors. With Ecogrip Solid, the office chair glides perfectly – both over hard floors and carpeted floors. On hard floors, the high-performance, thermally welded VAB®-antiglide layer ensures that the mat cannot slip. On carpeted floors, blunt anchor studs provide grip by digging into the soft pile.

For carpets with anchor grips

For hard floors with VAB®-antiglide layer

Abstract

- extremely durable and long-lasting due to polycarbonate material
- crystalline structure ensures optically clear appearance
- at least 80 % recycled material
- extreme temperature resistance (-100 °C to +120 °C)
- compatible with floor heating systems
- self-extinguishing property/low flammability Bfl-s1 according DIN EN 13 501-1
- unrestricted freedom of movement of the chair castors on hard & carpeted floors with simultaneous slip resistance of the mat
